Use your **Power To** take **action** to prevent violence against women, HIV and AIDS

This is too much!

You're right! It has to stop!

1 So many girls and women are experiencing violence.

It's because many of them don't have power in their relationships with men.

We should do something.

2

The government should do something!

Or NGOs.

Oh! But why them?

3

Yes! We have power!

It's in our hands!

Let's talk to people and get their ideas.

5

We can demand that schools make a policy against teachers asking for sex from students.

We can organize at the street level and take action when we know of violence in our communities.

7

Yes, why should we wait for someone else to do something?

But what can WE do?

I think we can do a lot!

4

So what do you think we can do?

6

We can come up with a bylaw against any violence in the family.

We can advocate at the clinic that treatment be available to any girl or woman in need.
